INDEX

Abrams, Duff.
Discussion, 386, 387.

Adams, William H.
Discussion, 209.

Aggregates.
Confusion of Specifications for Aggregates, by L. E. Williams, 642.
Report of Committee E-5, 656.

Ahlers, John G.
Wear Tests on Floor Finishes at R. H. Macy Warehouse, 778.
Discussion, 330, 630, 787, 788.

Allan, W. D. M.
Standards of Performance of Concrete for Stucco, 794.
Discussion, 542, 546.

Allyn, E. H.
Discussion, 330, 776.

American Concrete Institute.
Report of the Board of Direction, 853.
List of Convention Registrants, 858.

Anderegg, F. O.
The Mechanism of Corrosion of Portland Cement Concrete with Special Reference to the Role of Crystal Pressure, 332.

Architectural Concrete.
Is a Specific Ferro-Concrete Style Evolving? by Francis S. Onderdonk, Jr., 192.

INDEX

Discussion, 330, 776.

American Concrete Institute.
Report of the Board of Direction, 853.
List of Convention Registrants, 858.

Anderegg, F. O.
The Mechanism of Corrosion of Portland Cement Concrete with Special Reference to the Role of Crystal Pressure, 332.

Architectural Concrete.
Is a Specific Ferro-Concrete Style Evolving? by Francis S. Onderdonk, Jr., 192.

Ash, H. C.
Thomson Dam and Reservoir, 29.

Bates, P. H.
Discussion, 538, 541, 542, 543, 544, 546, 554, 757, 767.

Bauer, Edward E.
High Early Strength Concrete, 314.
Discussion, 329, 330, 385.

Bauman, E. W.
Discussion, 208.

Beggs, George E.
Discussion, 709.

Bischoff, J. M.
Supervision and Inspection of Concrete in Modern Building Construction, 182.
Discussion, 630.

Boyer, E. D.
President's Address, 22.

Brock, A. S.
Discussion, 78, 209.

Burns, A. S.
Discussion, 776.

Chapman, C. M.
Discussion, 271.

Christianson, Mr.
Discussion, 542, 545.

Chubb, J. H.
Discussion, 330.

Claye, R.
Discussion, 99.

Committee Reports.

E-3, Research, 432.
E-4, Characteristics of Concrete for Fire Resistance, 812.
E-5, Aggregates, 656.
E-6, Destructive Agents and Protective Treatments, 27.
P-1, Standard Building Units, 602.
P-3, Specification for Cast Stone, 550.
P-6, Concrete Products Plant Operation, 573.
J-2, Concrete Culvert Pipe, 606.
Sub-Committee 1 on Stucco of Committee C-3, Specification for Finish Coat Stucco, 561.

Conahey, George.

Discussion, 386.

Concrete Absorption.

Testing Concrete for Absorption, by Fred Weigel, 514.
The Limitations of the Absorption Test for Concrete Products, by Raymond Wilson, 522.
Discussion of Absorption of Concrete Products, by P. H. Bates, 538.

Concrete Bridges.

The 600-ft. Concrete Arch Bridge at Brest, France, by E. Freyssinet, 83.

Concrete Buildings.

Standards of Performance of Concrete for Reinforced Concrete Buildings, by Nelson L. Doe, 807.

Concrete Columns.

A Study of Chapter 11, "Tentative Building Regulations for Reinforced Concrete," by Phil J. Markmann, 818.

Concrete Control.

Three and a Half Years Experience of the Detroit Edison Company in Concrete Control, by A. S. Douglass and J. S. Nelles, 100.

Concrete Design.

Comparison of Methods of Determining Moisture in Sands, by William R. Johnson, 261.
Chapman, C. M. Discussion, Moisture in Sands, 271.
Smith, Geo. A. Discussion, Moisture in Sands, 275.
Philip, Patrick. Discussion, Moisture in Sands, 276.

Concrete Design (Continued).

A Scientific Trial Method for Designing Concrete Mixtures, by R. E. Robb, 280.
McCall, H. C. Discussion, Moisture in Sands, 290.
Water Tables and Curves for Use in Designing and Estimating Concrete Mixtures, by Herbert J. Gilkey, 292.
Concrete Studies at the Bull Run Dam, City of Portland, Oregon, by T. C. Powers, 388.
Continuity as a Factor in Reinforced Concrete Design, by Hardy Cross, 669.
Design of Reinforced Concrete Slabs, by Joseph A. Wise, 712.
The Absolute Basis for Proportioning Concrete and Its Economy, by Joseph A. Kitts, 741.
Discussion of Design and Cost Data for the 1928 Joint Standard Building Code, 829.

Concrete Durability.

Report of Committee E-6, 27.
Thomson Dam and Reservoir, by H. C. Ash, 29.
Thirty Years Field Experience with Concrete, by L. W. Walter, 47.
Lessons from Concrete Structures in Service, by Roderick B. Young, 64.
Corrosion of Concrete with Special Reference to Crystal Pressure, by F. O. Anderegg, 332.
Concrete for Resisting Sea Water, by Harry E. Squire, 751.
Concrete Exposed to Alkali Ground Waters, by C. J. Mackenzie, 763.
Special Characteristics of Concrete for Pavements, by F. H. Jackson, 768.
Wear Tests on Floor Finishes at R. H. Macy Warehouse, by John G. Ahlers, J. J. Lindon and Millard F. Bird, 778.
Characteristics of Concrete for Fire Resistance—Report of Committee E-4, 812.

Concrete Expansion and Contraction.

Volumetric Changes in Portland Cement Mortars and Concretes, by Raymond E. Davis and G. E. Troxell, 210.
Hatt, W. K., Discussion, 256.

Concrete Floors.

Wear Tests on Floor Finishes at R. H. Macy Warehouse, by John G. Ahlers, J. J. Lindon, and Millard F. Bird, 778.

Concrete Houses.

Livability of Concrete Dwellings, by S. C. Hollister, 801.

Concrete Products.

The Development and Use of Cast Stone, by L. A. Falco, 497.
The Physical Properties of Commercial Cast Stone, by John Tucker, Jr., and G. W. Walker, 501.
Specification for Cast Stone, by Committee P-3, 550.
Report of Committee P-6, Including (1) Relation of Mixing Time to Strength of Concrete Block, 574; (2) Time of Mixing Test at Pittsburgh, 597; (3) Time of Mixing Test at Omaha, 598; and (4) Operating Efficiency of Concrete Products Plants, 601.
Standards of Performance of Concrete Masonry Units, by E. Grant Lantz, 789.

Concrete—Retempered.

Tests of Retempered Concrete, by H. F. Gonnerman and P. M. Woodworth, 344.
Bibliography, 376.

Concrete Roads.

Special Characteristics of Concrete for Pavements, by F. H. Jackson, 768.

Cross, Hardy.

Continuity as a Factor in Reinforced Concrete Design, 669.
Discussion, 710.

Davis, Raymond E.

Volumetric Changes in Portland Cement Mortars and Concretes 210.

Derleth, C. P.

Discussion, 428.

Doe, Nelson L.

Standards of Performance for Concrete for Reinforced Concrete Buildings, 807.

Douglass, A. S.

Three and a Half Years Experience of the Detroit Edison Company, in Concrete Control, 100.
Discussion, 78, 79, 385, 631, 655.

Dutton, Earl.

Discussion, 630.

Eyrick, Geo. J., Jr.
The Development of Specifications for Reinforced Concrete, 622.

Falco, L. A.
The Development and Use of Cast Stone, 497.
Discussion, 542.

Foster, A.
Discussion, 386, 636.

Foster, C. B.
Discussion, 79.

Freeman, P. J.
Purchasing Central-Mixed Concrete, 632.
Discussion, 77, 78.

Freyssinet, E.
The 600-ft. Concrete Arch Bridge at Brest, France, 83.

Friss, Kristen.
Discussion, 79, 208, 757, 759.

Foley, R. A.
Effect of Temperature on the Curing of Concrete, 566.

Giles, R. T.
Discussion, 178.

Gilkey, Herbert J.
Water Tables and Curves for Use in Designing and Estimating Concrete Mixtures, 292.
Discussion, 380, 546, 555.

Gonnerman, H. F.
Tests of Retempered Concrete, 344.
Discussion, 229, 385, 387.

Gould, H. J.
Discussion, 787.

Hadley, H. M.
Discussion, 829, 846.

Haegert, D. V.
Discussion, 759.

Hart, W. E.
Discussion, 630, 639, 788.

Hatt, W. K.
Discussion, 63, 256.

Hollister, S. C.
Translation of Paper by E. Freyssinet on 600-ft. Arch Bridge in France, 83.
Livability of Concrete Dwellings, 801.

Jackson, F. H.
Special Characteristics of Concrete for Pavements, 768.
Discussion, 668, 776, 777.

Johnson, William R.
Comparison of Methods for Determining Moistures in Sands, 261.
Discussion, 274.

Kitts, Joseph A.
The Absolute Basis for Proportioning Concrete and Its Economy, 741.
Discussion, 427, 651.

Lagaard, M. B.
Discussion, Thomson Dam and Reservoir, 39.

Lantz, E. Grant.
Standards of Performance of Concrete Masonry Units, 789.
Discussion, 542, 605.

Lenhardt, L. G.
Concrete Lining of the Water Supply Tunnels of Detroit, Michigan, 152.
Discussion, 178.

Lindau, A. E.
Discussion, 630, 710.

Locke, Clyde E.
Discussion, 811.

Lord, A. R.
Discussion, 78, 98, 842.

Lyse, Inge.
Discussion, 421.

Mackenzie, C. J.
Concrete Exposed to Alkali Ground Waters, 763.

Maney, G. A.
Discussion, 826.

Markmann, Phil. J.
A Study of Chapter 11, "Tentative Building Regulations for Reinforced Concrete," 818.

Mauro, F.
Discussion, 208, 274, 759, 776.

McCall, H. C.
Discussion, 290, 331, 631, 787.

McFalls, E. L.
Discussion, 787.

McMillan, F. R.
Discussion, 98, 271.

Meacham, James A.
Discussion, 554, 630, 666.

Menefee, F. H.
Discussion, 777.

Munsell, A. W.
Discussion, 78, 178, 811.

Nelles, J. S.
Three and a Half Years Experience of the Detroit Edison Company in Concrete Control, 100.

Oliver, William A.
Discussion, 98.

Onderdonk, Francis S., Jr.
Is a Specific Ferro-Concrete Style Evolving? 192.
Discussion, 208, 209.

Pearson, J. C.
Discussion, 800.

Philip, Patrick.
Discussion, 276.

Powers, T. C.
Concrete Studies at the Bull Run Dam, City of Portland, Oregon, 388.
Discussion, 429, 662.

Price, P. W.
Discussion, 654, 760.

Research.
Report of Committee E-3, 432.
Bibliography of 1928 Research, 457.

Robb, R. E.
A Scientific Trial Method for Designing Concrete Mixtures, 280.

Seddeler, Melvin.
Discussion, 787.

Slater, W. A.
Discussion, 98.

Smith, George A.
Discussion, 275.

Spayth, F. J.
Discussion, 565, 800.

Specifications.
Cast Stone, Committee P-3, 550.
Finish Coat Portland Cement Stucco, Sub-Committee 1 on Stucco of Committee C-3, 561.
Requirements for Concrete Brick, Committee P-1, 602.
Concrete Culvert Pipe, Committee J-2, 606.
The Development of Specifications for Reinforced Concrete, by Geo. J. Eyrick, Jr., 622.
Confusion of Specifications for Aggregates, by L. E. Williams, 642.

Squire, Harry E.
Concrete for Resisting Sea Water, 751.
Discussion, 760.

Sutherland, Hale.
Discussion, 826.

Walter, L. W.
Thirty Years Field Experience with Concrete, 47.
Discussion, 79, 757.

Wasson, J. H.
Discussion, 760.

Way, W. F.
Discussion, 709, 829, 846.

Weigel, Fred.
Testing Concrete for Absorption, 514.
Discussion, 541, 543, 544, 554.

Westergaard, H. M.
Discussion, 738.

Wig, R. J.
Discussion, 759, 760, 767

Williams, L. E.
Confusion of Specifications for Aggregates, 642.
Discussion, 655.

Wilson, Raymond.
The Limitations of the Absorption Test for Concrete Products, 522.

Woodworth, P. M.
Tests of Retempered Concrete, 344.

Young, Roderick B.
Lessons from Concrete Structures in Services, 64.
Discussion, 78.

Wise, Joseph A.
Design of Reinforced Concrete Slabs, 712.
Discussion, 739.

Thompson, R. M.
Discussion, 805.

Thomson, H. F.
Discussion, 641.

Troxell, G. E.
Volumetric Changes in Portland Cement Mortars and Concretes, 210.

Tucker, John, Jr.
The Physical Properties of Commercial Cast Stone, 501.

Van Niekerk, R.
Discussion, 521.

Walker, C. G.
Discussion, 554.

Walker, G. W.
The Physical Properties of Commercial Cast Stone, 501.
